How to login to your account?

Objectives

- Where to login
- How to login to Wingu Billing Dashboard
- How to login to Wingu Cloud Dashboard

wingu

Our cloud solution is made up of two parts, the billing and cloud systems.

The **Billing System** is a system which enables us to capture telemetry data
from the OpenStack environment and convert this data to billable values.

The **Cloud Dashboard** is the Canonical implementation of OpenStack's Horizon Dashboard, which provides a web based user interface to OpenStack services.

For a more in depth look on Horizon, you can go to the OpenStack Documentation webpage, and look at the Horizon section.

http://docs.openstack.org/developer/horizon/

You will use the same login details for both systems.

# How to login to Wingu

Go to: **https://accounts.wingu.co.za/**

Where would you like to go?

Login as Customer

Register

Click the **Login as Customer** button to display the login dialog. This will give you access to functions like viewing your quotas, checking past invoices and outstanding balance.

If you are new to the Wingu system, click the **Register** button to so a self-registration. This will enroll you are a user on the Wingu platform to consume IaaS resources.

After you have clicked the **Login as Customer** button, you will be
